PRACTICAL CENTRING, TREATING OF THE PRACTICE OF CENTRING ARCHES: IN BUILDING CONSTRUCTION AS CARRIED ON IN THE UNITED STATES AT THE PRESENT TIME, ALSO GIVING OTHER USEFUL INFORMATION OF VALUE TO THE TRADE

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Practical Centring, Treating of the Practice of Centring Arches: In Building Construction as Carried on in the United States at the Present Time, Also Giving Other Useful Information of Value to the Trade In response to a request from many carpenters and builders to republish in book form the following articles, which originally appeared in Carpentry and Building, The National Builder, and The American Builder, all published in the United States, and in the Illustrated Carpenter and Builder, published in London, England, I now take pleasure in putting forth this little volume, with the hope that they will find it useful. The work embraces each subject in detail, and in language that practical men can understand. I would especially commend it to the attention of students attending trade, technical, and architectural schools, as they will find it helpful in acquiring the practical knowledge of construction so essential to success. My best thanks are due to the builders, from whom I have obtained much of my information; also to the publisher, who has gotten up the book in a form to be a useful addition to the chest or book-shelf of every rising worker in the trade.
