By Department of Defense

Createspace Independent Publishing Platform, 2008. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Printed in COLOR as originally intended. This manual prescribes dimensional and geometric layout criteria for safe standards for airfields, landing zones, heliports and helipads, and related permanent facilities, as well as the navigational airspace surrounding these facilities. Criteria in this manual pertain to all Department of Defense (DOD) military facilities in the United States, its territories, trusts, and possessions, and unless otherwise noted, to DOD facilities overseas on which the United States has vested base rights. Tenant organizations on civil airports in the continental United States (CONUS) will use these criteria to the extent practicable; otherwise, FAA criteria will apply. Specifically, on airfield areas that are joint-use or with restrictions and clear zones generated by joint-use areas, the FAA criteria contained in FAA Advisory Circular (AC) 150/5300-13 is applicable. For areas where airfield surfaces are Air National Guard (ANG) controlled, whether fee-owned or exclusive use leased, the criteria contained in this manual are applicable. Includes a list of applicable NIST, UFC, and MIL-HDBK cybersecurity publications for consideration. Why buy a book you can download for free? First you gotta find a...
