## STUDY OF NEW FLUOROSULPHATE MATERIALS FOR LITHIUM ION BATTERY

LAP Lambert Academic Publishing Nov 2015, 2015. Taschenbuch. Book Condition: Neu. 220x150x6 mm. Neuware - In this book, synthesis, structural and electrochemical performances, especially kinetics of  $\text{LiFeSO}_4\text{F}$  are investigated.  $\text{LiFeSO}_4\text{F}$  powder was obtained through ionothermal and solid state methods. The properties of obtained powders were characterized by X-ray diffraction (XRD) and scanning electron microscope (SEM). The diffusion path of  $\text{LiFeSO}_4\text{F}$  was investigated through crystallography point of view. The concept of  $\text{Li}^+$  hopping distance and anion window were used to determine...

### Reviews

*The publication is easy in read better to understand. It is writter in basic words and phrases rather than hard to understand. You wont truly feel monotony at anytime of your respective time (that's what catalogues are for about if you question me).*

-- **Kaya Rippin**

*These kinds of publication is everything and got me to looking ahead of time and much more. it absolutely was writtern extremely completely and valuable. Your way of life period is going to be enhance when you full looking over this ebook.*

-- **Dr. Lessie Murphy IV**

*The ebook is fantastic and great. I really could comprehended every thing out of this published e publication. You can expect to like the way the blogger write this publication.*

-- **Precious Farrell**
