

White Working Class: Overcoming Class Cluelessness in America (Hardback)

Filesize: 8.98 MB

Reviews

Basically no phrases to clarify. It really is written in straightforward phrases rather than hard to understand. You will not sense monotony at any moment of your own time (that's what catalogues are for concerning if you ask me).

Harvard Business Review Press, United States, 2017. Hardback. Condition: New. Language: English . Brand New Book. Around the world, populist movements are gaining traction among the white working class. Meanwhile, the professional elite--journalists, managers, and establishment politicians--is on the outside looking in, and left to argue over the reasons why. In *White Working Class*, Joan C. Williams, described as something approaching rock star status in her field by the New York Times, explains why so much of the elite's analysis of the white working class is misguided, rooted in assumptions by what she has controversially coined class cluelessness. Williams explains how most analysts, and the corresponding media coverage, have conflated working class with poor. All too often, white working class motivations have been dismissed as simply racism or xenophobia. Williams explains how the term working class has been misapplied--it is, in fact, the elusive, purportedly disappearing middle class. This demographic often resents both the poor and the professionals. They don't, however, tend to resent the truly rich, nor are they particularly bothered by income inequality. Their dream is not to join the upper middle class, with its different culture, but to stay true to their own values in their own communities--just with more money. *White Working Class* is a blunt, bracing narrative that sketches a nuanced portrait of millions of people throughout the world who have proven to be a potent political force. For anyone stunned by the rise in populist, nationalist movements, wondering why so many would seemingly vote against their own economic interests or simply feeling like a stranger in their own country, *White Working Class* will be a convincing primer on how to connect with a crucial set of workers--and voters.
